

City of Turlock Recycled Water Program

Procedures for Commercial and Residential Customers to obtain recycled water at the RWQCF Fill Station

1. During the Customer's initial pickup of recycled water staff will meet them at the RWQCF fill station and provide a one-on-one training with the Commercial or Residential Customer
2. Residential Customers will be given RW Notice stickers (provided by the City) to place on their containers used for transporting and storing recycled water.
3. Remove fill nozzle from holder and fill appropriate labeled container. Residential container must be 5 gallons or greater and not to exceed 300 gallons.
4. Once you container is filled remove nozzle and place back in holder.
5. Securer lids on your containers
6. Commercial users must have water tanks labeled "Recycled Water- Do Not Drink" and a dedicated fill hose for recycled water use only.
7. Customers will fully complete information required on the fill station log sheet.
